

## PSP/TSP Starter Kit

(Product ID: PSP-K)

The PSP/TSP Starter Kit contains painting hardware and paints necessary to get started with pressure and temperature sensitive paint research.

The kit contains an HVLP gun with regulator and ¼" quick-disconnect fittings to connect to shop or tank air supply. An airbrush and airbrush compressor with air fittings is included for painting smaller models or calibration samples. Each of the academic PSPs and TSPs are included in 12-oz aerosol spray cans for easy application and practice of the PSP technique. More advanced Binary FIB pressure sensitive paint and FIB Basecoat for research quality data is also included in the kit.
