

# Continuous 2-inch Air-Cooled LED Light Source

(Product ID: LM2X-DM-XXX)

The continuous 2-inch, air-cooled LED light source provides uniform, stable illumination, for pressure and temperature sensitive paint measurements. The LED is designed for radiometric acquisition systems. It can operate continuously (DC) or in a long-pulsed mode. The operation mode is set using an external toggle switch. In long-pulsed mode, the pulse width and frequency are set by sending an external TTL signal to the BNC trigger input. The duty cycle may be set from 0% to 100%. The light distribution from the unit is approximately Gaussian for distance greater than 18-inches [45-cm] from the source. The units are available in standard wavelengths of 400-nm and 460-nm, however, other wavelengths are available upon request.

**Ordering information:** LM2X-DM-XXX (LED head with DC/long pulse driver -XXX denotes wavelength)

## SPECIFICATIONS

<b>Optical Power</b>	4-5 W
<b>Input</b>	48V --- 2.7A
<b>Stability</b>	~0.1 % per hour after warmup
<b>Wavelength</b>	400-nm, 460-nm
<b>Rise time (10% - 90%)</b>	< 5 μs
<b>Fall time (90% - 10%)</b>	~ 250 μs
<b>Maximum Duty Cycle</b>	100%
<b>Operating Temperature</b>	-10°C to 60°C
<b>FWHM</b>	+/- 18-nm
<b>ECCN</b>	EAR99

**LM2X-DM-XXX**
