

C-Mount Optical Kit

(Product ID: OP-K-C)

The c-mount optical kit contains three c-mount lenses to be used on the PSP-CCD-C and PSP-CCD-M cameras. The kit also contains all appropriate filters corresponding to the paints in the PSP-K pressure sensitive paint kit. Use the following as a guide to installing the appropriate filters with their respective paints:

| Filter | UniCoat PSP | Binary UniCoat PSP | UniTemp TSP | CCTR TSP | BinaryFIB® PSP | UniFIB® PSP | TurboFIB PSP | Porous, Fast PSP |
|-------------------|-------------|--------------------|-------------|----------|----------------|-------------|--------------|------------------|
| 495FG03-50 | | X | | | | | | |
| 530FG05-50 | | | | | X | | | |
| 550FG05-50 | | | X | X | | | | |
| 450FH90-50 | X | X | X | X | | X | X | X |
| 610FG05-50 | X | | | | | X | X | X |

Three step-up rings are included in each optical kit which adapts the c-mount lens to the 52-mm filter ring which houses the filter itself. Filters with a reflective coating should be mounted with the reflective side towards the painted surface. The 450FH90-50 is a reflective filter which blocks specular reflections from contacting the filter glass. Use the 450FH90-50 in conjunction with all filters (except 530FG05-50 which is already coated with the same reflective surface) and paints and mount in a separate filter ring in front of the filter glass.

| Part | Quantity |
|----------------------|----------|
| Filter Ring | 5 |
| Step-Up Ring | 3 |
| 8-mm c-mount | 1 |
| 16-mm c-mount | 1 |
| 25-mm c-mount | 1 |

All components contained in OP-K-C are EAR99.
